Chennai → Open to Relocation

SUMMARY

Entry-Level Android Developer with a strong foundation in Java, Flutter, Dart, Android Studio, XML, and Android SDK. Familiar with Object-Oriented Programming (OOPs), mobile app development, Activities, Intents, UI components, REST API integration, JSON, and SQLite. Skilled in debugging, problem-solving, and version control using Git and GitHub. Seeking an entry-level Android Developer or Java Developer role to develop reliable, user-friendly mobile applications and contribute to a professional development team.

EDUCATION

Bachelor of Science in Computer Science

SRM Institute of Science and Technology

08/2022 - 04/2025 Tiruchirappalli, India

HSC – Computer Science

National Higher Secondary School

06/2021 - 05/2022 Mannargudi, India

SSLC

UAAT Higher Secondary School

06/2019 - 05/2020 Ammapettai, India

PROJECTS

Shopping Mobile Application

Present

A mobile shopping application for users to browse and purchase clothing products.

- Developed a mobile shopping application with user-friendly interfaces for browsing clothing products.
- Implemented product listings, product details, shopping cart, and quantity management features.
- Designed responsive screens for a smooth mobile shopping experience.
- Implemented user registration and login screens with navigation between application pages.
- Practiced debugging, UI development, and application testing using Flutter and Dart.

Smart Food Ordering System – SRM Good Foods

Present

A web-based food ordering system that allows users to interactively order food.

- Developed a responsive food ordering website with interactive food product listings.
- Implemented shopping cart functionality to add, remove, and update food quantities.
- Used Local Storage to retain cart data across browser sessions.
- Designed responsive layouts for desktop, tablet, and mobile devices.
- Deployed the website using GitHub Pages and Netlify.

CERTIFICATIONS

Android Studio Masterclass - APP DEVELOPMENT COURSE

Completed the Android Studio Masterclass – App Development Course, where I learned the fundamentals of Android application development using Android Studio. I gained hands-on experience in designing user interfaces, writing application logic, handling user interactions, debugging code, and testing applications on an Android emulator. The course provided a basic understanding of building, running, and maintaining Android applications.

SKILLS

Programming Languages

Java Python C

Android Development

Flutter Android SDK Android Studio
